

Get free support from a climate action advisor

29 Oct 2024

As part of the Let's Go Zero campaign our team of climate action advisors are here to give free and tailored advice to help green England's school buildings, transport, menus and more.

What is a climate action advisor?

Climate action advisors are experts, who offer free support for schools, colleges and nurseries across England.

We support schools to understand their carbon impact, make effective plans, and find funding and resources.

We work with schools of any size, even those that are just starting their sustainability journey. We also spotlight local opportunities for how schools can work together.

7 reasons to get help from our advisors

1. work out your school's current emissions
2. greener journeys to and from school
3. develop delicious low carbon menus
4. access local and national funding
5. lower energy, waste and water bills
6. create sensory gardens and vegetable patches
7. discover free, inspiring curriculum resources.
