

## Active travel maps

An active travel map has been created for most schools in Ealing.

The aim is to encourage walking, wheeling, cycling and scooting on the school journey.

The maps show popular walking routes, times these routes take to walk, Park and Stride areas for those who must drive, as well as safer places to cross such as zebra and pelican crossings.

Download and share with your community. It would also be helpful for families, especially those new to schools, to have access to this map on your school website. Please be aware these maps are being updated as School Street schemes are introduced across the borough.

### Active travel benefits

- families often find it's quicker than driving
- great way to tackle child inactivity
- counts toward the recommended 60 minutes of daily physical activity
- pupil concentration is improved for up to four hours
- reduced congestion means the roads are safer
- less traffic means improved air quality.

Select your school name to view and download your bespoke active travel map:
