

Ealing Council would like to know what improvements, new services and facilities you wish to see in your local area centres.

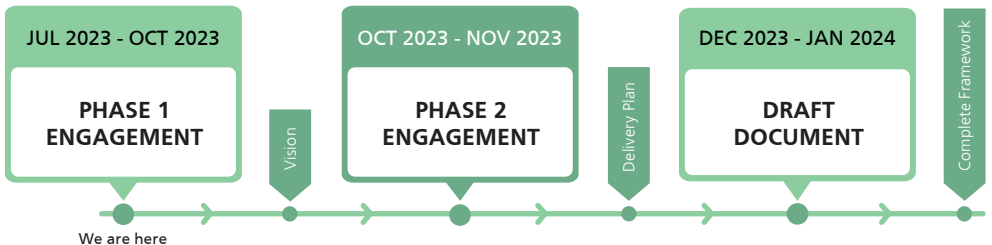

These local services could include access to public transport, health, education, employment, community, retail, culture, leisure and green spaces.

Our objective is to work closely with communities across Ealing and Hanwell and understand your views on what investments are needed to improve the local offer for residents and to support local businesses to thrive.

*The council is committed to being open, transparent and inclusive in how we engage with our communities on improvements needed in our seven towns.*
