

## RESOURCES

Grown out of it is a free online service that allows schools, parents and students to sell new and second-hand uniforms, as well as essential everyday items for school life.

Our marketplace offers 3 participation models:

- **SCHOOL TO PARENT**
- **PARENT TO PARENT**
- **STUDENT TO PARENT**

We offer all the required resources to promote the platform and your online shop, as well as a series of videos, including tutorials to assist Schools, PTAs, Parents and Students.

### SCHOOL TO PARENT

Grown out of it is the perfect platform to assist staff and volunteers in the sale of new and second-hand branded uniforms and school items.

Schools and PTAs can set-up an online shop to use as the main hub for the sale of donated items, or as a support function to the current school process.

The platform can streamline your process, increase your efficiencies, and allow wider access to the service.

### PARENT TO PARENT

Grown out of it functions in the same way as most online marketplaces, which ensures ease of use for parents.

Our website has over 25,000 schools listed, ensuring items are immediately advertised to the next generation of students entering specific ages and sizes within your child's school.

We also provide a unique donation option, to raise funds for your school and support for the local community.

### STUDENT TO PARENT

Students are using Grown out of it as an educational tool - developing the following skills:

- Literacy
- Numeracy
- Critical Thinking
- Problem Solving
- Planning and Organisation
- Creativity and Innovation
- Personal Effectiveness

This in collaboration with the benefits for a sustainable future.
