

The School Run

JTA 1: Hello, my name is (all JTAs say your names) and we are your JTAs. This is our last bulletin! Today we are going to summarise everything we have spoken about in the past year.

JTA 2: We have spoken to you about Active Travel, Stop Look and Listen, Cars and the Vicious versus Virtuous Circle, Air Quality, Being responsible on your school journey, CO² and the Climate Crisis, Sustainability, Sustainable Transport and Park and Stride. We have learnt a lot!

JTA 3: 'The school run' is the journey into and home from school. It is usually very busy and chaotic. We often see lots of people rushing, parents getting stressed, and too many cars and people parking in places that make it difficult for others to cross, like on zigzags.

JTA 4: Imagine if we all travelled to school in the ways we have talked about over the past year. Very few people would come by car, and those that did would either Park and Stride or Car Share.

JTA 5: Those walking would be responsible, and use Stop, Look and Listen when they crossed, and those cycling and scooting would have lots of fun whilst getting fit too. The school run would be so much better!

JTA 6: This month we are asking you to use sustainable transport at least once per week.

WOW – walk once a week

SOW – scoot once a week

COW – cycle or car-share once a week

Who is going to try to do this? (wait for hands up) Well done!

Thank you for listening
